

To scan and send a document

1. From the Scanning home page, insert the paper—face down.

- It will go in about ½ an inch.
- If it's not 8½ inches wide, align it with the right edge. The small tooth in the slot must be covered.

2. Choose the Document Type from the pull-down menu.

3. Check the **Preview** box if you would like to preview the scanned page before sending (you will be able to accept or reject the page.)

Tap **Scan Page**.

4. After the page goes through, tap **Done**.

You can send up to five pages at a time. Simply insert another and tap **Add Page** before you tap **Send**. You can also enter a comment before sending the document(s).

5. Tap **Send** and then tap **OK** to confirm your choice.

RMA Authorization Process

- For initial support, call Omnitracs Customer Support at (800) 541-7490.
- If you want to follow up on an RMA for status and have already received an RMA number from Quest Solution, contact:

In-Cab Scanning Installation Instructions, 468Q-2

- Getting Started
- Installation Checklist
- Step-by-Step Instructions
- Calibration
- Scanning and Sending
- RMAs

⚠ WARNING

Driver – Do not use while vehicle is in motion.

Use while driving will cause distraction and loss of vehicle control which may lead to serious injury or death.

Getting Started

The following parts list consists of the items included in the 65-JB526-P3 or 65-JB526-P4 In-Cab Scanner kits. Use these numbers to order additional parts.

- **Scanner** — PN 825-53392-2468
- **Scanner Cable** — PN 364-18579-3000
- **Holster Kit** — PN 825-53392-0002 (included in 65-JB526-P3 kit only)
- **Mounting Kit** — PN 65-J9632-2 (included in 65-JB526-P4 kit only)
- **Cleaning & Calibration Sheets** — PN 825-53392-0001

⚠ WARNING

Mounting the scanner near the vehicle airbags can injure a driver or passenger involved in a crash.

Airbag firing can cause the scanner to become a projectile leading to serious injury or death.

Mount the scanner in a location that will not be impacted by the firing of any forward or side airbag.

⚠ WARNING

Improper cable installation can interfere with the vehicle pedals or steering.

Interfering with the pedals or steering can cause a crash, resulting in serious injury or death.

Mount the cables so that they cannot interfere with the brake, accelerator, clutch, or steering wheel, **EVEN IF THE TIE WRAPS**

Installation Checklist

Use the following checklist when installing the scanner:

- Move the unit into the iQ Operational Profile with scanning and customer-preferred applications (one time only).
- Install scanning hardware in the desired location, using the Dual Lock tape or holster option.
- Calibrate the scanner.
- Scan and send a document. (See back page or on-board tutorial.)
- Check the Scanning Outbox to make sure it was sent successfully.
- Provide training for drivers and tell them to call their Driver Manager or Omnitracs Customer Support for help.

If you experience problems:

Call Omnitracs Customer Support at (800) 541-7490.

Installation Steps

1 Connect the scanner

1. Remove the metal cover from the MAS USB/SER connector.
2. Select the scanner location.
3. Insert the B Connector of the USB cable into the scanner and the A Connector into either USB port on the MAS.
4. If mounting the scanner only, **see step 2a**.
If mounting a holster to stow scanner, **see step 2b**.
5. Route the scanner cable where it will not be damaged, obstruct the driver, or hinder truck performance.

Note: It may be necessary to route the cable under wells and interior molding.

2a Mount the scanner directly—no holster (65-JB526-P4)

1. Confirm the scanner location.
2. Clean the scanner bottom and the mounting surface with an alcohol pad and let dry.
3. Remove the backing from two pieces of Dual Lock Tape and apply them to the bottom ends of the scanner.
4. Remove the backing from the other two pieces of Dual Lock Tape and apply them to the mounting surface.
5. Position the scanner in the desired location and press firmly to secure the grip of the Dual Lock Tape.

2b Mount a holster to stow the scanner (65-JB526-P3)

1. Select the holster location.
2. Clean the mounting surface with an alcohol pad and let dry.
3. Remove the backing from the Dual Lock Tape on the holster.
4. Position the holster in the desired location and press firmly to ensure contact with the surface.

3 Calibrate the scanner

1. From the Display Interface Unit home screen, tap **Scanning**.
2. From the Scanning home screen, tap **Options**.
3. Insert the black and white calibration page (or a plain white sheet of paper) into the scanner until it engages.
4. Tap **Calibrate**. When the paper finishes moving through the scanner, tap **Scan** to return to the Scanning home screen.

Note: Calibrate and clean the scanner once per month. Refer to MCP training.
