

UPDATING OMNITRACS XRS MOBILE

Omnitracs will update Omnitracs XRS Mobile with new features, enhancements, and other software corrections. Two methods are available for updating Omnitracs XRS Mobile whenever a new version is released, Automatic and Manual.

AUTOMATICALLY UPDATING OMNITRACS XRS MOBILE

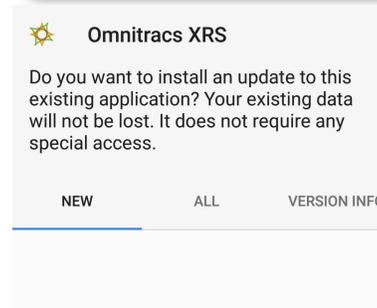

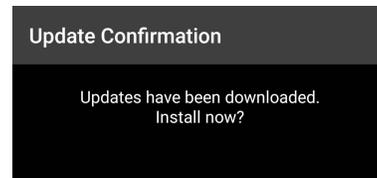

If a new version of Omnitracs XRS Mobile is available, it will download in the background when you log in to the app.

The next time you log out, the Update Confirmation screen appears, notifying you that updates have been downloaded and asking if you want to install them.

1

Select **Yes**. A Package Installer window opens, asking you if you want to install the updates and reminding you that your existing data will not be lost.

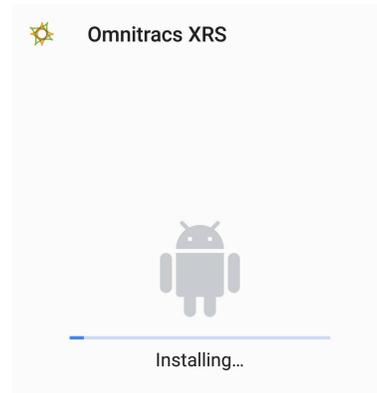

NOTE: You must allow ALL required permissions for Omnitracs XRS Mobile to operate correctly.

2

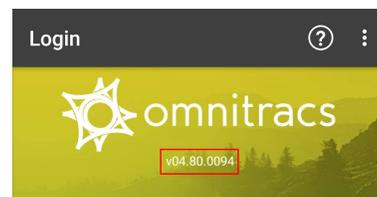

Select **Install**. An installation window opens and remains open until the updates have been downloaded.

When the installation process is complete, Omnitracs XRS Mobile closes and you return to your device's home screen.

3

Select the **Omnitracs XRS Mobile** icon on your home screen or app drawer to open the updated version of Omnitracs XRS Mobile and log in. The new version number is displayed on the login screen.

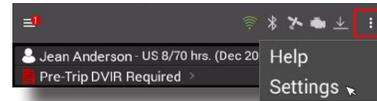

MANUALLY UPDATING OMNITRACS XRS MOBILE

4

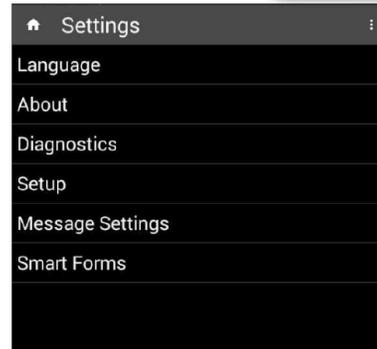

From the Omnitracs XRS Mobile dashboard, select the **three-dot menu** button in the upper right corner of the screen and select **Settings** from the menu.

The **Settings** screen appears.

5

Select **About**. The **About** screen appears.

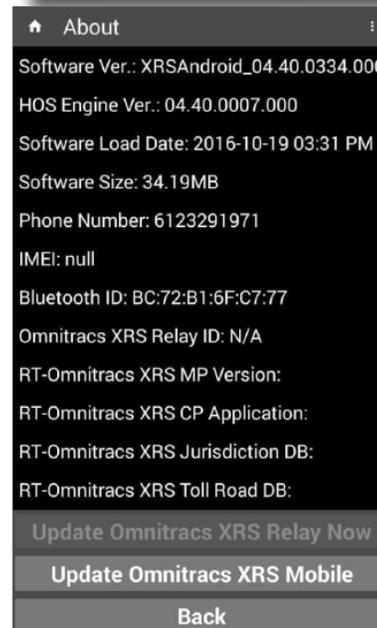

6

Select the **Update Omnitracs XRS Mobile** button. Omnitracs XRS Mobile checks for the latest version.

If a new version of Omnitracs XRS Mobile is not available, an Update Confirmation message appears stating, "No new updates found." Select **OK** to exit and return to the **About** screen.

If a new version of Omnitracs XRS Mobile is available, the Update Confirmation message appears asking if you would like to install the update now. Select **OK**.

Once the update has been downloaded, the **Download Complete** screen appears.

7

Select **Yes** to log out. The **Logout** screen appears.

Select **Accept** to log out the driver and, if necessary, the co-driver.

The **Update Confirmation** screen appears.

Select **Yes** to begin installing the Omnitracs XRS Mobile update. A Package Installer window opens.

Return to steps 1-3 to finish your installation.
